

How to choose machine in China

When you decide to buy machines from China, maybe the first thing you think is the price, but you need to consider the quality and service too, how to choose a qualified machinery supplier in China? how can you buy authentic machines at the reasonable price? Below are some suggestion.

1. Safety

To the pharmaceutical companies, the most important is the safety of the pharmaceutical products, for example, the effective elimination of the heavy metal particle, and the controlling of the microorganism. And the safety of the machine components is also important, so when choosing a machine, the safe material needs to be considered.

2. Main parts of the machine

When you get the quotation of a machine, you should carefully read the main parts list, the main parts is crucial to a machine, so you should pay more attention to it, especially country of origin. For example, Siemens from Germany and Siemens from other countries is quite different, the reliability is not the same.

3. Qualified manufacturer

Try to choose a manufacturer or supplier with long history and good

reputation, because they can guarantee the quality. If the machine is with low quality, it will cause the waste of material, money and time.

4. After-sale service

It is very important that the excellent after-sale service should be provided together with the machine. Almost most of the machines need installation, commissioning and maintenance, a professional after-sale service team can make your machines running well in your facility.

5. A reliable agent

China is so big, almost for every product, there are lot of different manufacturers to produce it and a lot of distributors to sell it. In the market, the prices of the same product are quite different, it is very difficult for a foreigner to choose an authentic machine at the reasonable price, so it is very important and necessary that to set up the partnership with an professional distributor. We always co-operate with the leading manufacturers in China, we have sold many machines to many countries, such as the United State, Korea, Russia, Brazil and so on, we hope to set up partnership with you, and help you to find the most suitable machine you need.
